## Maryland Consolidated Plan (2020 – 2024) Goals for Certification

Summary of the objectives and outcomes identified in the Plan Needs Assessment

### Overview

In developing its Plan, the State determined it would focus on four main areas:

1. Increasing Affordable Rental Housing (with an emphasis on rental housing for low and extremely low income households, special needs population including persons with physical and mental disabilities as well as those living with HIV/AIDS) – outcomes will be based on the number of units produced as well as leveraging to provide additional housing resources to provide services.
2. Promoting homeownership for first time homebuyers (including families with student debt and veterans) – outcomes will be measured by units as well as new homebuyers in designated Sustainable Communities.
3. Community Revitalization (with an emphasis on small business expansion and lending) – outcomes will include economic impact on neighborhoods assisted, number of new small businesses assisted/created.
4. Reducing homelessness, with a particular emphasis on supportive housing for vulnerable populations, including the chronically homeless, youth, and veterans and those living with HIV/AIDS – outcomes will include reduced homelessness counts and services provided to those living with HIV/AIDS.
